+6285183323882 | davadwi123@gmail.com | www.linkedin.com/in/muhamaddava | <https://itsdep.space> | Bekasi Regency, Indonesia.

An IT Leader and Full Stack Developer with over 2 years of experience and comprehensive expertise in the PHP (CodeIgniter 3, Laravel) and JavaScript (React, Express.js, React Native) ecosystems. Trusted in making fast technical and strategic decisions, supported by effective time management skills. Highly adaptable to facing new challenges and proficient in providing efficient database solutions using MySQL and PostgreSQL. Ready to make a significant contribution to software development projects through strong team collaboration.

Work Experience

PT Naturalva Herba Indonesia – Bekasi Regency, Indonesia | November 2023 – Present

IT Leader (December 2025 – Present)

- **Engineering Leadership:** Led and orchestrated the IT team in developing and maintaining all core company systems, ensuring operational continuity and infrastructure reliability.
- **System Integration & Oversight:** Oversaw high-level architecture across the company's entire technology ecosystem (including CRM, Performance Review System, GA Asset System, LMS, Marketplace applications, and Affiliate systems) to ensure seamless integration.

Full Stack Developer (January 2025 – November 2025)

- **Infrastructure & Backend Control:** Took full control of the backend architecture, server management, and database optimization (MySQL, PostgreSQL) for all enterprise applications.
- **Performance Review System & Asset Management:** Designed and developed a comprehensive employee performance appraisal system (covering OKRs and competency evaluation), integrated seamlessly with a corporate asset management module.
- **Mobile App Development:** Built a dedicated companion mobile application for the employee appraisal system using React Native to improve team mobility and accessibility.
- **Omnichannel & API Integration:** Developed the company's communication system by integrating the official WhatsApp API with a third-party provider (Vonage).
- **Affiliate Management System:** Developed an end-to-end web-based affiliate data processing platform to monitor transaction cycles and automate commission calculations.

Web Developer (February 2024 – December 2024)

- **Core System Development:** Entrusted with full responsibility to independently develop the centralized Web CRM and build the Marketplace Data Processing Web to synchronize data across various e-commerce platforms.
- **Feature Engineering:** Designed and implemented new features with efficiently structured programming logic, requiring minimal supervision.

Intern Web Developer (November 2023 – Februari 2024)

- **System Adaptation:** Quickly adapted to the company's tech stack, agile workflows, and codebase standards.
- **Technical Support:** Supported senior developers in building foundational features and executed bug fixes to maintain web application stability.

Education

Gunadarma University – Depok, Indonesia | September 2019 – August 2023

- **Bachelor of Informatics** – GPA 3.72/4.00

Licenses, Training & Certifications

Training & Certification – SanberCode (2023)

- **NextJS** (GPA 100/100): Built a social media application with full CRUD features and external API integration.
- **ReactJS** (GPA: 89/100): Designed a book lending system API using AdonisJS with access control and authentication.
- **NodeJS Backend** (GPA: 99/100): Developed a collaborative discussion forum system with topic management and dynamic responses.
- **Laravel Web Dev** (GPA: 99/100): Built a Job Board application integrating job vacancy data via API.

Skills

- **Hard Skills:** JavaScript, PHP, HTML, CSS, MySQL, PostgreSQL, GIT, API Integrations (REST/Third-Party), React Native, Express.js
